RELEVANT EXPERIENCE

Aster DM Healthcare Doha, Qatar
Finance and Audit Intern *Feb 2021 – Apr 2021*

- Reconciled over $300,000 in transactions using Microsoft Excel pivot tables and VLOOKUP, identifying financial discrepancies and improving reporting accuracy across billing and capital allocation systems supporting executive decision-making.
- Reviewed 150+ invoices against internal control frameworks, performing process mapping and variance analysis to surface trends, strengthen compliance documentation and replicate due diligence workflows applied in M&A advisory and debt transactions.

Federal Bank Kerala, India
Market Risk Management Intern *Sep 2020 – Feb 2021*

- Compiled and analyzed structured financial datasets across 40+ accounts, applying quantitative analysis and financial modeling to assess balance sheet risk, support regulatory capital reporting and inform executive-level capital allocation decisions.
- Prepared 10+ structured financial reports covering loan portfolios and liability structures, applying variance analysis to identify risk concentrations and support capital structure optimization and stress-testing frameworks.

ADDITIONAL EXPERIENCE

DePaul University Chicago, IL
Peer Mentor, Global DePaul *Sep 2025 – Present*

- Guide 10+ international graduate students through structured onboarding, applying clear oral and written communication to simplify complex systems and deliver accurate guidance on tight timelines.

Global Conference Alliance Surrey, Canada
Administrative Assistant *Jan 2024 – Dec 2024*

- Built Excel-based financial summaries and budget tracking dashboards supporting data visualization and structured reporting for executive leadership across 5+ concurrent business initiatives managing $500K+ in tracked budgets.
- Managed operational workflows involving 20+ internal and external stakeholders, demonstrating strong organizational, interpersonal and written communication skills in a fast-paced, deadline-driven environment.

FINANCE PROJECTS

Financial Modeling and Valuation: DCF, Comparable Companies and Precedent Transactions

- Built a fully integrated three-statement financial model with dynamic formula linking; projected 5-year free cash flows using WACC and CAPM; modeled capital structure scenarios covering leverage ratios, debt capacity and refinancing economics to determine optimal financing structures, replicating core IB analyst deliverables for M&A and capital-raising mandates.
- Conducted comparable company and precedent transaction analysis across 8 to 10 peers using EV/EBITDA and P/E multiples, synthesizing valuation ranges and strategic recommendations to support capital-raising and M&A advisory decisions.
